Kariana - G.T.S.

It's hard to envision today, but Kariana gave herself a bowl cut in sixth grade. Thankfully, she now puts her skills to good use by crafting fresh, beautiful looks for her clients. Kariana returns home to Door County as often as she can, but she'd also be content with plenty of time in the tropics amid white sand, blue ocean and palm trees.

Jinger - G.T.S.

If you seek a fabulous style, Jinger has the talent you need. If you're looking to sport a mullet, she may direct you elsewhere. Jinger is inventive: she likes to change her look and gets creative in the kitchen – no recipes needed. She likes the satisfaction of seeing a great film at a theater, and wants her clients to feel the same way after their salon visit.

Johanna - GTS

For someone who once Super Glued her fingers together, Johanna is actually quite talented in the salon and beyond. She's a computer and technology whiz who often daydreams of her next adventure. She has gone parasailing, plays basketball, once worked at Disney World, and wants to backpack through Europe. While Johanna favors sassy hair styles, she delights clients with styles that match their preference.
